Maintenance Program for hard surfaces sealed with STARSEAL PS hardened floors and Starseal FSR

REMOVE SPILLS WHEN THEY HAPPEN

Daily

Sweep floor regularly with a microfibre dust sweep.

Clean with Multi-Clean Tough Green cleaner degreaser using a micro fibre mop.

Use Multi-Clean Tough Green , our 'green' cleaner, in your auto scrubber.

Scrub with a *soft brush* fitted to an auto scrubber.

Special notes:

Make sure all furnishings have rubber stops under them at all times.

Do not drag heavy items across the floor, as this will damage the surface. Rather, pick them up to move them.

Office chairs with roller type wheels need to be protected with hard, durable mats under them.

Scuff marks: All car tyres create scuff marks, particularly low profile tyres.

These can be scrubbed off using a scrubber and a black pad and Multi-Clean TOUGH GREEN degreaser diluted 1+:10.

Things not to do

DO NOT clean with CITRUS, AMONIA, PEROXIDE CHLORINE or ACID based cleaners.

DO NOT gurney the floor with a high pressure washer.

DO NOT use a Tynex brush on the auto scrubber.
